EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claims 9-10, line 1, "Component according to" should be changed to --The electric component according to--.

2. Claims 8-10 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 8 recites, inter alia, two electric contact pads are located on at least one tongue formed of at least one layer of said plate, the end of one tongue being folded and secured onto an external surface of said first or second base such that electric contact pads are turned outwards.

The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
